This is the Header of tyour page.
It will contain a green color mark, the Logo
and eventually the login button. please for-
give the mute color, my version of Illustrator
is outdated, this is NOT the final color

Your Home owner's association logo will
go here.If you have adigital copy of it,
please e-mail it to me :)

This section is for images. I can set the images to scroll
through various photo's taken from local events, or photos of
the community as taken by members of the HOA or Residents.

Either of these locartions will
serve as your navigation bar
(See page 2)

Anderson Park

HOA Logo (Still in Design)

THis section will live feed from your
Upcoming events calendar,
A feature I will be building in to your
site using Google calendars. This
way, you will be able to reflect upcom-
ing events relevant to the
Neighborhood.

This remaining portion can be
used to add more functionality to
the site. For instance, you could
use it to add quotes from the local
residents, or you could use it to
display information regarding
local rules and regulations; So on
and so forth.

This is the Footer of your page. Here,
my copy write, as well as Anderson
Park's Copy write information will be
displayed. There will also be Contact
info for anyone you feel is relevant for
issues with the site, or anyone who is
looking to get in contact with any part of
the HOA's support staffh

This portion of the page will be saved
for a brief description of the neighbor-
hood, as well as the HOA. Here, you
will be writing your introduction to
anyone who visits your site. Pay no
attention to the color of this section, it
is mearly meant to highlight this par-
ticular area.

I'm thinking of doing the lettering for your navigation in Goldor Silver.
(please see page 1 for NAvigation bar placement)
each link will be separated by a vertical dash like this.
Again, forgive the crudeness of this, my software is outdated.
